About Me

My name is Yehia, and I am still studying at the Egyptian E-Learning University (EELU). I have completed three years of university studies, with one final year remaining, which will end in 2026. I have a strong interest in web development and have taken a Flutter course at CLS Academy, which helped me understand mobile app development. Currently, I am continuing my learning in web development and studying Full Stack Development at SEF Academy to enhance my skills and build integrated projects.

MY WORK

- I am a web designer specializing in MERN Stack, with expertise in creating modern and responsive user interfaces. I have strong skills in HTML, CSS, JavaScript, and React, focusing on user experience, performance, and aesthetics to deliver high-quality web solutions. 🚀
- I am a web designer with two years of experience and a strong focus on user-friendly designs. I also studied mobile app development, allowing me to create seamless solutions across web and mobile platforms.
- I studied Flutter at CLS Academy and obtained a certification, enhancing my skills in mobile app development and cross-platform solutions.
- I have recently started studying a UI/UX course and learning how to work with Figma to enhance my design skills and user experience knowledge
